Supplementary Reserve of Officers—Preliminary Training and Annual Gratuity.—1. With reference to paragraph 10 (b) of Army Order 299 of 1924, the annual gratuity will not be issuable either in whole or in part to an officer of Category B, Supplementary Reserve, until the 31st December following the date on which he completes his preliminary training, except as provided in paragraph 3 below. The first payment of gratuity will be assessed according to service from the date of commission to the date of issue, provided that the officer undergoes his preliminary training at the first military opportunity.* If an officer is allowed to postpone his preliminary training or fails to carry it out at the first military opportunity* the first payment of gratuity will be in respect of the year in which he carries out the training and no gratuity will be issuable for any period prior to that year.

**A.O. 9.
1925.**

2. With reference to paragraphs 20 and 21 of Army Order 285 of 1924, officers may, at their own request, be allowed to spread their preliminary training over a maximum of 4 years, provided that not less than 1 month's preliminary training is carried out in each year. In such cases, officers will be required to carry out annual training in the years in which preliminary training is carried out.

3. Officers who carry out preliminary training in the manner indicated in paragraph 2 above, will not be eligible for full gratuity until the 31st December following the date on which their preliminary training is completed. For the previous years they will be granted a proportion of the gratuity calculated according to the ratio between the aggregate number of days' preliminary training carried out to the 31st December in question, and the total number of days' preliminary training which the officer is required to perform. In cases where the latter is stated in months, for purposes of calculation, a month will be taken as equal to 30 days. For instance, in the case of an officer who is required to undergo a preliminary training of 4 months, and actually carries out 6 weeks in his first year of service, 6 weeks in his second year, and the balance in his third year, the gratuity issuable on 31st December will be $\frac{42}{120}$ ths of £25 for the first year, provided that he has served for 1 whole year (a proportionate part of this, if

The first payment of gratuity will be made on 31st December of the year in which the first portion of preliminary training is carried out, and will be assessed according to service from date of commission to date of issue, provided that the officer has carried out such training at the first military opportunity.*

In order to qualify for gratuity, officers who do not perform the whole of their preliminary training at one time must also perform annual training during the years in which preliminary training is carried out. No annual training will be required for the first year in cases where officers join the Supplementary Reserve after the annual training period.

Instructions to Troops in the event of Forced Landings by Aircraft.—1. Circumstances may arise which compel the pilot of an aeroplane to make a forced landing in a field in which troops are parading or carrying out manœuvres. It is impossible to lay down rigid

A.O. 17.
1925.

Army Orders.—January, 1925.

A.O. 17 rules which should be followed by the troops in such a contingency, but the following instructions should be
1925
continued. taken as a guide for the procedure to be followed.

2. Procedure before landing.

(a) A pilot approaching a field with the intention of making a forced landing will, if possible, approach and land into wind. If there are troops in the field and there is enough time, they should be ordered to proceed at the double to the sides of the field parallel to the direction of the wind, leaving as much space as possible in the middle of the field down which the pilot can land.

(b) In the event of a forced landing being carried out in a long narrow field it may be necessary for the pilot to land across wind. In such fields troops should be ordered to double to the sides of the field nearest to themselves leaving the pilot as much room as possible to land down the long way of the field.

(c) If an aeroplane approaches a field in which there are troops and there is no time for the troops to double to the sides of the field, it is *essential* that they should not be allowed to scatter in an endeavour to dodge the aeroplane; they should lie down immediately. If the men are allowed to run about, it not only confuses the pilot and increases the chance of a crash, but there is very much more danger of men being hit by the aeroplane.

3. Procedure in the case of forced landing where the aeroplane is undamaged.

(a) If called upon, the officer commanding the nearest army unit should provide a guard for the aeroplane until such time as a Royal Air Force guard or salvage party (or in the case of civil aircraft, the local police) arrives and takes over the aeroplane. The instructions for the guard should be as follows :—

- (i) The guard will on no account leave the aeroplane until relieved by the Royal Air Force guard, or by the police in the case of civil aircraft.
- (ii) *No smoking will be allowed in the vicinity of the aeroplane. No matches will be struck nor will naked lights be carried near the aeroplane.*
- (iii) No unauthorized persons will be allowed to touch the aeroplane.

- (iv) The guard will not lean against the planes or other fabric parts. A.O. 17
1925
- (v) On no account will the propeller or switches be touched. *continued.*

(b) Facilities will be given for the service pilot to get in touch with the nearest Royal Air Force unit or the civil pilot with the local police by telephone or wire.

4. *Procedure in the case of a crash.*

(a) In the event of a crash taking place near a military barracks, camp or detachment and being witnessed by troops they will on their own initiative :—

- (i) Render all assistance possible in removing the pilot and/or passenger or passengers from the wreckage. In order that subsequent investigation may be made to determine the cause of the crash the wreckage should not be disturbed more than possible while the occupants are being extricated. Thereafter the wreckage must not be touched by anyone until the arrival of a responsible Royal Air Force officer or Air Ministry official.
- (ii) Obtain nearest medical assistance.
- (iii) Report through their commanding officer to the nearest Royal Air Force unit or command giving number of aeroplane, names of occupants if possible, and time of accident.

If the address of the nearest Royal Air Force unit is not known, communication should be made to the nearest of the following units.

- (1) *Inland Area Headquarters*—Uxbridge.
Telegraphic address Airgenarch, Uxbridge.
Telephone Uxbridge 231 to 236.

Telegraphic address Aircivil, Airministry London.
Telephone Regent 8000.

(b) The commanding officer of an army unit, on being informed that an aeroplane has crashed in the vicinity of his unit, should take steps immediately to provide a guard to take charge of the wreckage. The instructions for the guard will be as follows :—

- (i) The guard will on no account leave the crash until relieved by the Royal Air Force guard.
- (ii) Owing to the fact that the petrol tank may burst during the crash and that as a result the ground and wreckage may be saturated with petrol, *it is essential that no smoking is allowed in the vicinity of the crash. No matches will be struck nor will naked lights be carried near the crash.*

When examining a crash at night *electric torches* only will be used. The headlights of a car, if available, may be turned in the direction of the crash.

- (f) Men of Section "D," other than those who have completed 12 years' colour service, will be required to train in the 1st or 2nd and 3rd years of their engagements in Section "D." Men who have completed 12 years' colour service will only be required to train in the 3rd year of their engagements in that section.

Reservists who fail to train in the year specified will be required to train in the following year.

4. The training referred to above will be carried out between 1st April and 31st October, and will consist of the following programme :—

(iii) A reservist who has been trained as a Vickers .303-inch machine gunner will, if called up for training in 1925, carry out the rifle exercises laid down in (i) above.

(iv) Cavalry reservists called up for training in 1925, will not be exercised in the Hotchkiss gun.

5. The following pay and allowances will be issued to a reservist for the day of training, or if he is detained as shown in paragraph 12 :—

- (i) The regimental pay of his rank.
- (ii) The proficiency pay to which he may be entitled (*see* Articles 923 and 924, Pay Warrant, 1922).
- (iii) Ration allowance.

In addition to the above the reservist will receive his reserve pay in the ordinary course.

Should the reservist fail to attend on the date selected by him and make use of the railway warrant on some other day when it is not possible for him to be trained, or should he, on joining, be incapable (except through ill-health) of undergoing the training, he will be dismissed to his home without pay and be required to attend on some future day at his own expense.

6. Any reservists who fail to complete their training before the end of October will be required to undergo the same course of training the next year. They will also be liable to forfeit reserve pay for a period not exceeding 92 days (*see* Article 1142, Pay Warrant, 1922, and instructions thereto). Reservists who attend any mobilization which may be ordered ; men employed in the Metropolitan, City, Borough, or County Police, the Post Office, or employed as convict or prison warders, and reservists absent with leave from the United Kingdom during the training period, will be exempted from training. They will, however, remain legally liable to be called out as stated in paragraphs 416 and 417, King's Regulations, 1923.

7. Officers i/c records will arrange that a "Notice to Train," Army Form D 421, is sent with the March quarterly payment to each man who, during the next 12 months, enters any of the sections of the reserve and is liable to train in that year as specified in paragraph 3 of these instructions. In the case of men who join Section D between 1st April and 30th June, Army Form D 428 will be sent with their first payment. In the event of a reservist re-engaging or re-enlisting for Section D after 30th June, Army Form D 428 will be sent to him with his next March quarterly payment.

A reminder (Army Form B 104-74) will be sent in a registered cover to reservists who have not acknowledged, by the 15th September, the receipt of their notices to train. Should the reservist reply that he has not received the notice, a second Army Form D 428 will be sent by registered post direct to him by the officer i/c records.

8. On receiving the reservist's answer, the officer i/c records will, in the case of a reservist residing outside the district in which his record office is situated, forward to the officer commanding the area in which the reservist resides, or if the reservist resides in the London District to the General Officer Commanding, London District, a "Notice of a Reservist desirous of Training," Army Form D 437. If the reservist resides in the district in which his

record office is situated, the officer i/c records will carry out the procedure laid down in paragraphs 11 and 13.

9. Area commanders will keep a list of all ranges, Government and County Association, situated in their areas where this training can be carried out. Practice on a County Association range can only be carried out with the consent of the Association to which the range belongs. The Association should, therefore, invariably be consulted in making arrangements for the attendance of reservists.

10. When County Association ranges are used, endeavour should be made to arrange for the attendance of reservists in parties, the officers, non-commissioned officers and markers to accompany them being drawn from the nearest Infantry depot. When this cannot be done, and it is necessary for individuals to fire their course, their attendance should be arranged for, as far as possible, at times when soldiers of the Territorial Army are practising, in order to obviate the necessity of employing separate markers.

11. The officer receiving Army Form D 437 will select from the list of ranges referred to in paragraph 9 the most suitable range on which to carry out the training. In making this selection he will be guided by the cost of conveying the reservist to the range, and in no case should a County Association range be selected unless conveyance to it is less than conveyance to the nearest Government range, or unless it would otherwise be impossible for the reservist to complete his training and return to his home in one day.

12. If it is impossible for a reservist to join, complete his training and return to his home in one day, pay and allowances as provided in paragraph 5 may be issued for two days when necessary and the circumstances entailing the issue must be fully explained on the Army Form D 437, which will be attached as a voucher to the pay list in which the charge is made.

13. Area commanders (or the General Officer Commanding, London District), after having selected the most suitable range, will, if a County Association range is selected, forward Army Form D 437 to the officer commanding the infantry depot nearest to that range. The officer commanding depot will then ascertain from the County Association which administers the selected range the days of the month on which that range will be available. He will then place himself in communication with the reservist, forwarding to him for completion Army Form D 431, addressed and stamped for return. He will be held responsible that the reservist is given every facility for carrying out his training. Should the reservist adduce sufficient reason for not being able to attend, the officer commanding infantry depot will endeavour to make special arrangements for carrying out the training. Should he fail in this he will refer the matter to the officer from whom he received Army Form D 437, who will use his discretion as to how the training is to be carried out. If that officer is unable to make the necessary arrangements for carrying out the training, he will report the facts to the officer i/c records concerned.

Should the reservist fail to attend without giving a reason,

a second Army Form D 431 will be sent to him for completion and return, and if he then fails to attend without giving a reason, further instructions will be applied for to the officer i/c the man's records, through the officer from whom Army Form D 437 was received.

If a Government range is selected, Army Form D 437 will be forwarded to the office i/c range, who will carry out the procedure as above.

14. When the officer commanding depot, or the officer i/c Government range, has arranged with the reservist the date for the training to be carried out, he will forward to him an "Order for Training," Army Form D 425, and, if the reservist resides more than 5 miles from the range, the necessary railway or passage warrants, or the allowance specified in the Allowance Regulations, to enable him to join. The officer commanding depot, or officer i/c a Government range, as the case may be, will also make the necessary arrangements (the former in conjunction with the County Association which administers the range to be used) for the range to be ready at the required time, that the officers, instructors and markers are present, and that the arms and ammunition are on the spot. No lodging or other allowance, however, can be issued for detention, nor can quarters be provided.

15. The supply of rifles, light automatics and ammunition will be made from the sources detailed below :—

When a Government range		
is used		From the depot or unit nearest to the range.

When a County Association range is used and the reservists attend—

(i) In squads		From the depot from which the officers, non-commissioned officers and markers are detailed.
---------------	--------	---

(ii) Individually		From the Territorial Army unit nearest to the range.
-------------------	--------	--

The officer commanding the unit which supplies the ammunition for the use of reservists will replace it periodically by indent on the Royal Army Ordnance Corps. The indent will be supported by a certificate from the officer superintending the practice showing the number of men who have been trained.

16. When arrangements cannot be made for a reservist to attend with a party on a County Association range, as laid down in paragraph 10, the officer commanding depot will arrange, as far as possible, for the training to be carried out when soldiers of the Territorial Army are practising.

17. The officer commanding depot will be responsible for the County Association being consulted in connection with the use of the range by reservists, when necessary.

18. No reservist will be allowed to fire on any range before the officer making the arrangements for carrying out his training has received Army Form D 437 for him.

19. On the training having been performed, the officer superintending the practice will pay the reservist in accordance with paragraph 5 at the rates specified in the Army Form D 437, which will be attached as a voucher to the pay list in which the charge appears.

In the case of individual reservists firing on a County Association range, the adjutant of the Territorial Army unit with which the practice is carried out will issue the pay and will charge the amounts in his permanent staff pay list, vouched by proof of payment.

20. The officer superintending the practice will forward a report on Army Form D 430, to the officer i/c records, and will complete the detachable slip at the foot of the form as regards measurements. Attention is drawn to the importance of taking these measurements accurately.

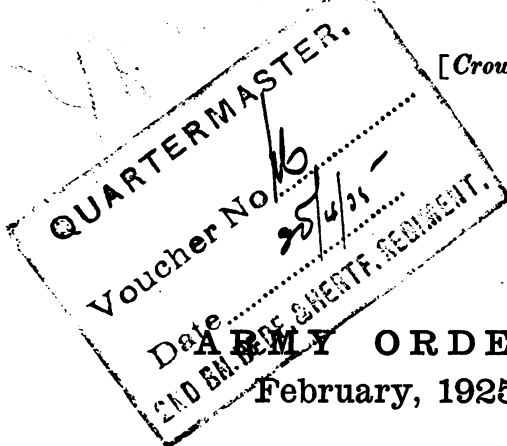

21. Reservists when called out for training, become subject to military law and the Army Act applies to them.

Bounty— Recruits.	612. A bounty of £2 will be paid to a recruit if he has performed in the training year in which he enlists either :—	A.O. 76. 1925.
----------------------	--	-------------------

- (a) the number of drills prescribed for a recruit in his arm of the service and 15 days' annual training in camp ; or
- (b) 10 drills in excess of the number prescribed for a recruit in his arm of the service and 8 days' annual training in camp.

For the purposes of bounties, the term "recruit" means (1) a man enlisted within the training year, who is not entitled by former service to be regarded as a trained man on joining the Territorial Army, or (2) a boy on reaching the age of 17 years. A boy will be eligible to earn a man's recruit bounty during the training year in which he reaches the age of 17 years. Drills performed before he reached that age, if they were carried out within that training year, will be allowed to count towards the full number prescribed above.

612A. A recruit who attends annual training in camp as a recruit but obtains permission under para. 343 to

Army Orders.—February, 1925.

A.O. 76 complete his preliminary training after 31st October
1925 next following his enlistment, will be eligible to receive
continued. the recruit's bounty of £2 on the completion of the preliminary drills laid down above for a recruit within 12 months of his enlistment.

612B. A recruit who can neither attend annual training in camp nor complete his preliminary drills before 31st October next following his enlistment, but, with the permission of his C.O. under para. 343, subsequently carries out the preliminary drills laid down above for a recruit within 12 months of his enlistment and attends annual training in camp in his second training year will be eligible to receive the recruit's bounty of £2 (*see also* para. 612F).

612C. A recruit who completes his preliminary drills by 31st October next following the date of his enlistment, but does not attend annual training in camp as a recruit, will not be eligible to earn the recruit's bounty of £2. He will, however, be eligible to earn the trained man's bounty under para 612D in his second training year, provided that he has completed his recruit's course of musketry (or its prescribed alternative) within 12 months of his enlistment.

612D. A bounty of £2 10s. 0d. will be paid to each warrant officer, N.C.O. and man (other than a recruit) who has performed in the training year either :—

Bounty-
trained
men.

- (a) 20 drills and 15 days' annual training in camp ;
- or
- (b) 30 drills and 8 days' annual training in camp.

A man enlisted as a recruit will not be eligible to earn a trained man's bounty until he has completed the preliminary drills and musketry (or the prescribed alternative) laid down for a recruit.

612E. A man who has earned his recruit's bounty under para. 612A and has completed his recruit's course of musketry (or its prescribed alternative) within 12 months of his enlistment will also be eligible to earn the trained man's bounty of £2 10s. 0d. by performing the training laid down in para. 612D for a trained man by the second 31st October following his enlistment.

612F. A man who fulfils the conditions laid down in para 612B, and has completed his recruit's course of musketry (or its prescribed alternative) within 12 months of his enlistment, and who completes also the training laid down in para. 612D for a trained man by the second 31st October following his enlistment will be eligible to

receive the trained man's bounty of £2 10s. 0d. in lieu of the recruit's bounty of £2. A.O. 76
1925

612G. Time spent with advance and rear parties will not count towards the period of attendance at camp required to earn the bounty except in the case of R.A.S.C. personnel required in connection with supply arrangements for these parties. *continued.*

612H. If a warrant officer, N.C.O. or man has attended for not less than 15 days, and qualified at, a voluntary course of instruction applicable to the arm or branch of the service to which he belongs, the G.O.C.-in-C. may authorize such attendance to count, for the purpose of bounty, as equivalent to 15 days' attendance at annual training in camp for the year in which he so qualifies.

612J. The bounty will be payable to a warrant officer, N.C.O. or man, otherwise eligible, who has commenced his annual training in camp and has signified his intention of remaining in camp for the full period required for earning the bounty, but, before completing the period, is admitted to hospital or is sent home in consequence of disability not brought about by his own action. In the event of his death, the bounty will be payable to his widow or dependent relatives. Charges will be supported by the certificate of the C.O. in each case that the man had signified his intention of remaining in camp for the required period.

612K. The bounty will not be allowed to men permitted to leave camp (otherwise than as laid down above) before completing the required period of training, but leave granted within the limits laid down in para. 434 will count towards the number of days required for earning the bounty. Days of absence, other than those on leave within the limits of para. 434, will not count for the purpose of earning bounty.

SECTION IVA. PROCEDURE FOR CARRYING OUT TRADE TESTS IN TIME OF WAR.

A.O. 84.

1925.

58A. Under active service conditions the procedure contained in paras. 28 to 36 as regards the Regular Army and paras. 44 to 46 as regards the Territorial Army will not apply. All trade testing will be carried out by the O.C. unit in which the soldier is serving, and his certificate of trade proficiency (A.F. B 197) will be endorsed by the O.C. unit to the effect that the classification awarded is given under the conditions of this paragraph and is temporary.

Any soldier classified as a tradesman under the above war conditions will, as soon as possible after such conditions cease to exist, be tested and re-classified under the procedure laid down in paras. 28 to 36. If he has not been so re-classified within 6 months of the date when the return to peace conditions was promulgated, he will either revert to normal rates of pay, or, if he had been classified as a tradesman prior to the outbreak of war, he will revert to the classification he then held, with effect from the date of the expiration of this period of grace.

58B. The foregoing arrangements will not affect the instructions laid down in paras. 37 to 42 except that references to Command Testing Boards in paras. 41 and 41A will apply instead to the Os.C. units concerned.

Payment will be made immediately on the evidence of the requisite marriage and birth certificates produced. He will call for any other certificates required, and adjust the amount of the allowance subsequently.

(b) He will make *provisional* issues of marriage allowance to families of reservists, supplementary reservists and soldiers of the Territorial Army, in accordance with Allowance Regulations, from the particulars given on the Army Forms completed at the time of joining (A.F. D 462 in the case of reservists and A.F. E 603 in the case of the Supplementary Reserve and Territorial Army), not necessarily supported by certificates in the first instance.

He will then cross-check the forms with the particulars given on the last forms already in his possession, and call for any certificates required. In the absence of the necessary certificates or satisfactory explanation within a fortnight of the first issue, the allowance books will be recalled for the necessary amendment of the amount issuable.

In the case of reservists, if A.F. D 462 is not received within 7 days of the date on which the man joins for duty on mobilization, payment of marriage allowance should be commenced in accordance with the particulars shown on the last rendered A.F. D 462, pending the receipt of a fresh claim, which should be called for.

(c) He will from time to time issue A.F. O 1837 or A.F. O 1837A with a view to ensuring that the payments in issue continue to be correct.

545. When making first payments under para. 544 he will notify the O.C. of the appropriate allotments on A.F. O 1795A and obtain acknowledgment.

ARRANGEMENTS TO BE MADE FOR THE ATTENDANCE OF TERRITORIAL ARMY CHAPLAINS AT CAMP

(*See para. 97*)

1. Territorial Army chaplains will be detailed for duty only at the regular annual training camps of the Territorial Army, and not at week-end or other subsidiary camps. The term “camp” in the following paragraphs will be interpreted accordingly.

2. Chaplains will be detailed for general duty at the camps to which they are posted, and will not restrict their ministrations to particular units, except that in the event of two or more chaplains of the same denomination attending the same camp at the same time, a definite division of responsibility should be arranged. Each chaplain will, however, be attached to a specific unit, during the period of his attendance, for purposes of accommodation, rationing, issue of pay and allowances, etc. The pay and allowances due under para. 4 below will be issued by the Os.C. the units to which the chaplains concerned are thus attached, and included in the unit's claim on A.F. N 1450.

3. Six chaplains for each division will be detailed for duty at the camp, or camps of the division; these will be allotted denominationally as follows:—

Scottish Divisions—

4 Presbyterian Chaplains.

1 Episcopal Chaplain.

1 Roman Catholic Chaplain.

Other Divisions—

- 4 Church of England Chaplains.
- 1 Presbyterian or Wesleyan or United Board Chaplain.
- 1 Roman Catholic Chaplain.

Chaplains in excess of these numbers may be permitted, should they so wish, to attend camp without receiving pay, allowances or rations.

If commissioned chaplains of the denominations specified are not available, the vacancy may be filled by a commissioned chaplain of another denomination.

4. Chaplains detailed for duty as above will be entitled to pay for each day of attendance, not exceeding a maximum of 15 days, at the rates laid down for Regular Army chaplains of the corresponding classes (*see* Article 275, Pay Warrant, 1922), together with such daily allowances as are issuable to combatant Territorial Army officers of corresponding rank in respect of attendance at the same camp.

5. These arrangements have been made to ensure that chaplains may have experience of field conditions, and to enable them whilst in camp to gain a closer acquaintance with the men and render them any service in their power.

6. The selection of chaplains for duty at each camp, within the total number laid down in para. 3 above, will be left to the discretion of the G.O.C.-in-C. the command to which the units attending the camp belong, subject to the following considerations:—

- (a) As far as possible, chaplains resident in the divisional area in which the units concerned are recruited should be chosen.
- (b) Only chaplains serving on the Active List of the R.A.Ch.D. (Territorial Army) are liable to be called up for duty at camp. Should it be found impossible to provide for the requirements of any camp by the employment of chaplains on the Active List, chaplains on the Reserve may, subject to their consent, be employed to make good any deficiencies, and in that case will be entitled to the pay and allowances of a 4th Class chaplain under the conditions laid down in

Army Orders.—March, 1925.

para. 4. Every effort should, however, be made to secure the attendance of chaplains on the Active List in preference to the employment of chaplains on the Reserve; chaplains in Class I of the Reserve should be employed for this duty in preference to chaplains in Class II.

- (c) Chaplains on the Active List, other than the senior chaplain of the division, should be called up in turn for camp duty, *i.e.*, chaplains who attend camp in any one year should, in succeeding years, give place to others.

7. In the case of units which do not camp with formations which are ministered to by divisional chaplains, provision for the conduct of divine service should be made in accordance with para. 658. In the event of any Territorial Army chaplain of the denomination concerned being present in camp without pay or allowances (under the provision of para. 3 above), he should be employed for this purpose, and may receive the remuneration provided for in that paragraph.

The accredited representatives of the different religious denominations (*see* the Monthly Army List) should be informed of the places and dates of the camps at which it is anticipated that the services of such local clergymen will be required. Any recommendations that may be received from them as to which individuals should be employed should be acted on if possible.

Army Council's instructions on the foregoing Warrant

1. Army schoolmistresses on re-assessment under this Warrant will be allowed to count their former full-pay service towards increments as uncertificated army schoolmistresses.

2. The special concession allowed under Army Order 438 of 1921, whereby all army schoolmistresses serving as such on 1st April, 1920, are allowed promotion to the Certificated Class on completing 10 years' service as such, will be continued to schoolmistresses of that category who have not yet completed 10 years' service.

On completion of that period of service they will enter at the minimum of the scale of pay for certificated schoolmistresses promulgated by this Warrant. The increases of pay consequent on this concession will not, however, be paid in full on promotion to the Certificated Class, but will be paid as follows:—

(a) one-third of the increase on the date of promotion, on completion of 10 years' service;

(b) one-third on the first anniversary of the date of promotion; and

(c) one-third, in addition to the normal annual increment, on the second anniversary of the date of promotion, *e.g.* :—

(i) £149 12s. plus £4 16s.=£154 8s. on the date of promotion.

(ii) £154 8s. plus £4 16s.=£159 4s. on the first anniversary of the date of promotion.

(iii) £159 4s. plus £4 16s. plus £8 11s.=£172 11s., on the second anniversary of the date of promotion.

3. An army schoolmistress, or a candidate for appointment as army schoolmistress, who is in possession of a Board of Education Certificate, will enter the certificated scale at the point which will secure for her an increment for each year of certificated service, except the first, either in army schools or in civilian schools.

4. An army schoolmistress at present on the unemployed list who returns to duty subsequent to the date of this Warrant, will be re-assessed for pay under the conditions laid down in paragraph 2 of Part II of the Schedule to this Warrant, *i.e.*, she will, on resuming duty, be granted the rate of pay in column 3 or 7 of the table in that paragraph appropriate to the rate drawn by her on being placed on the unemployed list, and will remain on that rate until the rate laid down in column 4 or 8 respectively is more advantageous.

With reference to paragraph 4 of Army Order 432 of 1920, as doubt has arisen with regard to the health insurance during training of Army Reservists and men of the Territorial Army who are unemployed immediately prior to training, it is notified that, provided that such men were, immediately previous to the period of unemployment, working in an insurable employment and had during such employment been furnished with a health insurance card, contributions will be paid in respect of them during training.

2. If a man is in possession of a health insurance card, he will be required to produce it on joining for training. If he is not in possession of a card, the officer commanding his company, etc., will ascertain from him whether he was insured during his last employment and according to the reply received will follow the procedure laid down in paragraph 29 or 30 of Army Order 197 of 1912.

1A. Tradesmen's rates are also applicable to youths enlisted as apprentice tradesmen, on attaining the age of 18 years, provided that they are then qualified as tradesmen, irrespective of whether a vacancy exists for soldiers of their trade in the approved establishment of the unit concerned. If no trade vacancy exists when an apprentice tradesman attains the age of 18 years, he will be treated as temporarily supernumerary in his trade and will be absorbed at the earliest opportunity.

“Every belt, lineman, safety, is to be closely examined for defects before issue and subjected to a shock test of 700 foot-pounds, as follows :—

The longer part of the belt is buckled into the end holes, so as to give it its full length when suspended. A load of 350 lbs. is attached to the belt. The load is then raised 2 feet and allowed to drop. If the belt is damaged it should be considered ‘unserviceable’.

In carrying out the test the belt should be suspended over a rounded surface and the load attached by a leather strap or some other means that will not damage the leather.

The test will be carried out under the supervision of an officer, and when it is completed the belt will be examined in detail for signs of failure resulting from the test.”

 engineer pay, signal pay and corps pay under the same
 conditions as Regular Army officers. The conditions of

issue of such pay to Regular officers have now been altered and are such as to render it impossible for Territorial Army officers to fulfil them. It is therefore necessary to formulate conditions for the grant of engineer pay, signal pay and corps pay to Territorial Army officers which, while making it possible for Territorial Army officers to qualify, will ensure adequate qualifications. The issue of corps pay to suitably qualified officers of the Royal Army Ordnance Corps who at present can draw only normal rates has also been approved.

2. Effect has been given to these alterations in the amendments to the Territorial Army Regulations which are set out below. A.O. 281.
1925.

153B. The reports on A F. B 194 will be made out in the first instance by the C.O. or other immediate superior of the officer reported upon, and will be forwarded by him for the remarks of the senior authorities.

The officer who initiates a confidential report, whether favourable or adverse, will communicate it to the officer reported upon, thus giving him an opportunity, if the report is adverse, of making any observations he desires before it is forwarded to the next higher authority.

When the initial report is favourable, and any report by higher authority contains adverse matter, the first report which contains adverse matter will be communicated to the officer concerned, before it is forwarded to the next higher authority.

In every case, whether the reports are favourable, adverse or both, the whole report, with the remarks of all the reporting officers, will be shown to and initialled and dated by the officer concerned, before it is forwarded to the War Office.

If the officer reported upon has already left the formation or unit with which he was serving or to which

he was attached, a copy of the remarks will be sent to him and a certificate to that effect will be entered on the report by the C.O. The copy will be returned by the officer after perusal and will be then destroyed. After the final communication, the reports will be forwarded, with as little delay as possible, direct to the Under-Secretary of State, The War Office.

A.O. 281

continued.

The procedure laid down above will be followed in the case of all reports on officers whether annual or otherwise, or whether the report is satisfactory or adverse.

In the event of a superior officer reporting favourably on an officer who has been adversely reported upon by the C.O. or other immediate superior, the conflicting reports will be enquired into by the military authority next in order of superiority, who will record his opinion and cause it to be communicated to the officer concerned. A note will be made on the report to the effect that these instructions have been duly attended to, or an explanation furnished in cases where they have not been carried out.

A.O. 314.
1925. Under this rule an officer whose appointment as captain was dated 1st January, 1922, may be sentenced to take rank in the Army and in his corps as if his appointment bore date 1st March, 1923. If his rank in the Army differs from that in his corps, the sentence may apply to the former only.

Neither the General List nor the Reserve of Officers is a corps for the purposes of the Army Act. Officers of the General List or of the Reserve of Officers cannot, therefore, be sentenced to forfeiture of seniority of rank in a corps, but they can be sentenced to forfeiture of seniority of rank in the Army.

2. This form of forfeiture of seniority of rank is intended to apply to cases where the dates of appointment of a large number of officers are identical, such as in the R.A., R.E., R.A.S.C., etc., and where forfeiture of even one day's seniority might in its effect constitute too severe a punishment for the offence, which nevertheless would not be adequately met by a severe reprimand. The court or the officer disposing of the case will be able to gauge the effect of such a sentence by a reference to the current Army List.

3. As to the effect of such a sentence in the case of a N.C.O., see A.A. 44, note 12.

4. See Form of Proceedings, para. 12, p. 696.

Service Corps, Royal Army Medical Corps and Royal Army Ordnance Corps, and for certain Single and Double Battery station messes of Royal Artillery.—1. In order to secure uniformity in the messes of the Royal Engineers, Royal Corps of Signals, Royal Army Medical Corps, Royal Army Service Corps and Royal Army Ordnance Corps, it has been decided to reduce their present peace establishments by the personnel at present allowed to be employed on mess duties and to provide civilian servants instead.

2. These civilians will be employed and paid by the public at rates laid down from time to time, and no payment will be made to the mess. The scale on which they will be allowed for approved messes, will be :—

- (a) 1 mess servant for each 8 officers, with a minimum of 3 for each mess and a maximum of 10 servants for each 100 officers. Messes will not be provided for less than 5 officers.
- (b) When the number of officers in a mess is 28 or more, one of the servants under (a) will be paid as a mess steward.
- (c) When the number of officers in a mess is 50 or less, one of the servants under (a) will be paid as a cook; and for every additional 50 officers another servant may be paid as a cook.

The number of officers for the purposes mentioned above will be the maximum number of officers habitually catered for at one meal—*e.g.*, lunch.

At certain stations where it is impossible to provide civilians, soldiers will be employed in the same proportion. **A.O. 337**

continued.

3. It has further been decided that units of the Royal Artillery occupying single or double battery stations shall be allowed an extra soldier mess servant.

Thus, at single battery stations 1 soldier mess servant will be added, making 2 in all for each battery, and at double battery stations 1 soldier mess servant will be added, making 3 in all for each pair of batteries.

4. Instructions as regards the application of this Army Order will shortly be issued to all concerned.

1. Officers commissioned prior to 26th October, 1925, will not be affected by the revised rates granted in the foregoing Warrant while they continue to serve on the commissions which they held on that date.

With reference to the provisions regarding the reservation of rights under earlier Warrants contained in Articles 1 and 6 of the Pay Warrant, 1922, it should be understood that the restriction, on the present occasion, of the application of the revised rates contained in the foregoing Warrant to officers commissioned or re-commissioned on or after 26th October, 1925, is an exceptional measure in no way impairing the general validity of those provisions.

2. The present assistant military secretaries will retain the rate of £1 11s. 0d. a day.

3. It should be understood that as officers of the Territorial Army and Supplementary Reserve draw the same rates of pay as Regular officers, the foregoing Warrant will apply equally to officers of these forces commissioned on or after 26th October, 1925, except as otherwise provided in Army Order 372 of 1925.

Army Council's instructions on the foregoing Warrant

1. Soldiers already serving prior to 26th October, 1925, will not be affected by the revised rates granted in the foregoing Warrant either during their current engagements, or during any period for which they may extend their service or re-engage or continue in the service beyond 21 years.

With reference to the provisions regarding the reservation of rights under earlier Warrants contained in Articles 1 and 6 of the Pay Warrant, 1922, it should be understood that the restriction, on the present occasion, of the application of the revised rates contained in the foregoing Warrant to soldiers enlisted or re-enlisted on or after 26th October, 1925, is an exceptional measure in no way impairing the general validity of those provisions.

2. The rate laid down for squadron quartermaster-corporal, squadron, battery or company quartermaster-serjeant, colour-serjeant or staff-serjeant includes additional pay at 6d. a day for keeping the pay and mess book under Article 780.

3. The rates of pay allowed for a serjeant cook, Royal Artillery, will also be drawn by the soldier (if in possession of a certificate of qualification) superintending the cooking (1) of a Royal Artillery brigade which has all its batteries at the same station, (2) at a station with a headquarters and district establishment, Royal Artillery, irrespective of his rank.

4. The grant of the increments provided for apprentice tradesmen will be subject to the attainment of the prescribed standard of efficiency as laid down in Regulations governing the issue of Tradesmen's Rates of Pay.

5. It should be understood that as other ranks of the Territorial Army and Supplementary Reserve draw the same rates of pay as regular soldiers, this Warrant will apply equally to other ranks of those forces enlisted or re-enlisted on or after 26th October, 1925, except as otherwise provided.

Army Orders.—October, 1925.

WHEREAS WE deem it expedient to reduce the establishment of Our Corps of Military Accountants and to transfer certain of the warrant officers, non-commissioned officers and men of the Corps to Our Royal Army Pay Corps or to other corps of Our Regular Army ;

OUR WILL AND PLEASURE IS that such warrant officers, non-commissioned officers and men of Our Corps of Military Accountants as Our Army Council may decide to be surplus to requirements and who are discharged prior to the termination of their engagement shall receive the benefits laid down in sub-paragraphs

Army Orders.—October, 1925.

A.O. 377 (a) to (f) of paragraph 1, according to the length of their unexpired colour service, and also those laid down in sub-paragraph (b) of paragraph 2, and in paragraphs 3 and 4 of the Schedule attached to Our Warrant* dated 11th May, 1922, so far as these are applicable. A soldier who has been permitted to continue in the service beyond 21 years for a fixed period will, on discharge, be eligible for the foregoing benefits and will draw in addition the pension for which he is eligible; provided that a warrant officer, non-commissioned officer or man of Our Corps of Military Accountants who is offered and accepts or refuses transfer to another corps for employment on clerical duties, or is offered and accepts transfer to another corps in any capacity, or on his discharge from Our Regular Army is offered and accepts permanent employment under any public Department, whether under Our Army Council or otherwise, shall have no claim to the aforementioned special terms.

OUR FURTHER WILL AND PLEASURE IS that the aforementioned special terms shall be subject to the conditions of Articles 9 and 23 of Our Warrant for the Pay, Appointment, Promotion and Non-Effective Pay of Our Army dated 15th July, 1922.

Given at Our Court at St. James's, this 19th day of October, 1925, in the 16th year of Our Reign.

By His Majesty's Command,

* Army Order 180 of 1922.

Army Council's Instructions on the foregoing Warrant

1. No leave or special issue of pay or allowances will be granted in respect of any period after the date on which the soldier would normally have been discharged.

2. In the case of soldiers who have already proceeded on leave pending discharge the leave already taken will count in diminution of the 28 days referred to in paragraph 1 (a) of Army Order 180 of 1922.

3. The benefits in sub-paragraphs (c) to (f) of paragraph 1 of Army Order 180 of 1922, and sub-paragraph (b) of paragraph 2 of that Army Order will be payable in weekly instalments. In no case will the compensation be paid in a lump sum.

4. It should be noted that the maximum gratuity under Article 958, Pay Warrant, 1922, for which a soldier discharged to permanent pension is eligible, is £2.

5. While the acceptance of transfer to other employment will render a warrant officer, non-commissioned officer or man ineligible for the benefits granted under the foregoing Warrant, the refusal of transfer (except for the performance of clerical duties) will not invalidate his claim to the benefits granted by the Warrant. Widows', Orphans' and Old Age Contributory Pensions Act, 1925—Application to Soldiers.— A.O. 378.
1925.

1. The above Act comes into force on 4th January, 1926, and applies to serving soldiers. The normal contribution payable in respect of a soldier will be at the ordinary rate of 9*d.* a week, of which sum the soldier will, like a civilian, be required to pay 4½*d.* a week.

2. The machinery under which payment of the contributions in respect of soldiers will be made by the War Office to the Ministry of Health will be the same as in the case of Health Insurance.

3. The soldier's share of the contribution (4½*d.* a week) will be recovered from him as a stoppage from his pay at a monthly rate of 1*s.* 7½*d.* Instructions regarding classification and accounting will be issued later. Meanwhile the stoppage should be made as from 4th January, 1926.

4. Army Reserve, Supplementary Reserve and Territorial Army during training.

(a) Men of the Army Reserve, Supplementary Reserve and Territorial Army will, during training, be dealt with, for the purposes of insurance under this Act, in exactly the same way and under the same conditions as for Health Insurance, except as stated in subparagraph (b) below.

It should be noted that the liability of the War Department for pensions contributions during training extends only to men who are insured under the Health Insurance Act.

In no case will pensions contributions be paid from Army funds during training in respect of exempt and excepted persons under the Health Insurance Act who are required to be insured, in certain circumstances, under this Act. The liability for pensions contributions during training in respect of such persons will remain with their civil employers provided that the contract of service continues and remuneration is paid by such employers for the training period. If remuneration is not paid by the civil employers for the training period, contributions are not payable for that period at all.

Army Orders.—October, 1925.

A.O. 378 (b) The contribution payable under the Health
1925 Insurance Act, which is reduced by 1*d.* a week as from
continued. 4th January, 1926, and the contribution payable under
the Widows', Orphans' and Old Age Contributory
Pensions Act, 1925, will be paid as one contribution.
While the whole of the Health Insurance portion of the
combined contribution will continue to be paid entirely
from Army funds in respect of a man of the Army
Reserve, Supplementary Reserve or Territorial Army
who continues to be insured during training, the man
will be required to pay the employee's share of the
portion of the contribution payable under the latter
Act. Thus, as from 4th January, 1926, a total com-
bined weekly contribution of 1*s.* 6*d.* will be payable in
respect of Health and Pensions Insurance, of which 4½*d.*
will be recoverable from the man's pay.

(c) The company or other officer responsible for
paying the men will ensure that the men's insurance
cards are stamped for the period of training, and will
recover from their pay the employee's share of 4½*d.* a
week, and will charge the balance of the total contribu-
tion against the Vote from which the men are paid.

Revision of Officers' Emoluments on account of variation in the Cost of Living.—1. With reference to the announcements in Army Orders 93 and 204 of 1924, and 8 and 52 of 1925, that the next revision of officers' pay, half-pay and retired pay, on account of variation in the cost of living, will be made with effect from 1st July, 1927, the cost of living figure for July, 1919, on which the revision will be based, will be taken at 107½ points above the pre-war cost, *i.e.*, the mean between the index figures of 105–110 published for that month by the Ministry of Labour.

Gen. No.

2. It is necessary for obvious reasons to decide on a figure sufficiently early to enable the variation to be announced well before 1st July, 1927. As, however, it is not desirable to take an estimated figure, *e.g.*, to take in March the figure which it is thought likely will obtain in July, the figure to be taken in 1927 for purposes of comparison with the 1919 figure will be the average of the Ministry of Labour cost of living index figures during the last six months (July to December) of 1926.

Royal Corps of Signals. Provision of personnel for Indian Signal Corps.—1. With reference to Army Orders 275 and 276 of 1920, 263 of 1923 and 12 of 1924 ; it has been decided that the full British Establishment required for the Indian Signal Corps shall eventually be provided by the Royal Corps of Signals. A.O.384. 1925.

2. In order to provide for the initial increase of establishment of officers of the Royal Corps of Signals, officers now serving with the Indian Signal Corps will, if they so desire, be considered for transfer to the Royal Corps of Signals. Individual applications from officers so serving are *not* required, as offers of transfer will be made to all officers recommended as suitable by the Commander-in-Chief, India.

3. The following rules will govern the transfer of the officers referred to in paragraph 2 :—

(a) Officers will be transferred only into vacancies created by the amalgamation of the British portion of the Indian Signal Corps with the Royal Corps of Signals,

(b) Officers will be offered transfer in their substantive ranks with seniority determined as follows :—

- (i) *For British Service officers.*—As for British Service officers already transferred to the Royal Corps of Signals, namely, with seniority according to the date of their present rank.
- (ii) *For officers of Indian Service.*—Whilst maintaining the relative precedence which officers of the Indian Signal Corps already bear amongst themselves, seniority in the Royal Corps of Signals will be assessed and individual officers will be offered a suitable place on the list, having due regard to rank and service in relation to that of officers of equivalent rank already belonging to the Royal Corps of Signals.
- (iii) In order to regulate transfers consistently with rank and seniority earned in the separate corps it will be necessary in giving effect to (ii) to defer, in certain cases, the transfer of officers of the rank of captain from the Indian Signal Corps until their contemporaries of the rank of lieutenant in the Royal Corps of Signals have been promoted. Whilst awaiting transfer those officers will be seconded to the Royal Corps of Signals for service in India and will count against the establishment of subalterns of the Indian Establishment of the Royal Corps of Signals.

Army Orders.—October, 1925.

A.O. 384 4. Officers transferred to the Royal Corps of Signals
1925 in accordance with this Army Order will be eligible to
continued. receive signal pay irrespective of whether they have
 obtained the technical qualifications laid down in the
 Pay Warrant, provided that on the date of transfer to
 the Royal Corps of Signals, they are in receipt of signal
 pay in India. Officers who are not in receipt of signal
 pay in India at the date of transfer will, in order to
 qualify for signal pay after transfer to the Royal Corps
 of Signals, be required to obtain the technical qualifica-
 tions laid down in the Pay Warrant.

5. (a) Until such time as the Peace Establishment of
 the Royal Corps of Signals is complete, subaltern officers
 of the Indian Army, with not more than 4 years' com-
 missioned service, will be eligible for secondment and
 eventual transfer to the Royal Corps of Signals under
 Army Order 12 of 1924. Such officers must attend the
 Royal Corps of Signals Qualifying Courses at the School
 of Signals, Catterick.

(b) As it will be some considerable time before the
 Peace Establishment of the Royal Corps of Signals is
 complete and able therefore to meet full requirements of
 both British and Indian establishments, it may be
 necessary for officers of other arms in India to continue
 to be attached under arrangements made by Army
 Headquarters, India, for service with the Indian Signal
 Corps, but such officers, unless coming under the pro-
 visions of (a) above, will not be eligible for transfer to
 the Royal Corps of Signals and will not be sent to the
 Royal Corps of Signals Qualifying Courses at the School
 of Signals, Catterick.

6. It will not be possible to allow the reversion to the
 Home Establishment in the immediate future of any
 large number of officers; consequently, whilst an officer
 now serving with the Indian Signal Corps will not, on
 transfer to the Royal Corps of Signals, be ordered to the
 Home Establishment against his wish, he will equally
 not have the right to claim immediate transfer thereto.
 Until such time as the situation becomes normal, the
 maximum number of reversions to be allowed each year
 will be laid down by the War Office having regard to the
 general situation as regards foreign reliefs in the Royal
 Corps of Signals. The choice of officers to be allowed
 to revert will then rest with the Commander-in-Chief,
 India.

7. Detailed instructions as regards the transfer to the
 Royal Corps of Signals of other ranks of arms other than

Royal Corps of Signals now serving with the Indian Signal Corps will be issued in due course. A warrant officer or non-commissioned officer already serving with the Indian Signal Corps on the Indian Unattached List who is not desirous of transfer to the Royal Corps of Signals, may continue to be employed with the Indian Signal Corps to the end of his service and will count against an equivalent rank of the Royal Corps of Signals Establishment in India. 2. These establishments will be checked, in the case of cavalry and infantry and of local corps abroad, by the paymaster who maintains the accounts of the soldiers of the unit; in the case of other corps by the fixed centre paymaster and, in the case of miscellaneous formations whose personnel is not borne on another establishment, by the paymaster who receives the accounts (except that garrison and district staff will be checked at the War Office).

3. For the purposes of this check every paymaster, in whose account the charge appears for the pay on 1st September of any soldier not belonging to an establishment which that paymaster is himself to check, will prepare and submit to the paymaster, etc., referred to in paragraph 2 nominal rolls of all such soldiers in the following categories :—

SCHEDULE

1. The amount laid down in Army Order 376 of 1925 will be paid on retirement to each officer of the Royal Army Pay Corps or Corps of Military Accountants who has not at that time received permanent employment under a public department, on condition that each officer before retirement signs an undertaking (a) to refund the difference between what he has so received and any lesser amount to which he may be entitled under the following paragraphs, and (b) to notify the War Office of any employment affecting his entitlement.

2. An officer who obtains a permanent commission (or a temporary commission with a view to a permanent commission) in the Royal Navy (including the Royal Marines), the Army or the Royal Air Force within a period of 5 years from the date of his retirement will :

- (a) if his service in the Royal Army Pay Corps or Corps of Military Accountants (including any previous service in His Majesty's forces) counts for non-effective purposes in his new force, have his position re-adjusted to what it would have been if he had been put on the half-pay list for five years under Articles 475 and 534 (j) of the Pay Warrant, 1922 ; that is, he will refund the whole gratuity less any amount which he would have received as half-pay during the period between retirement and the grant of the new commission ; or
- (b) if his service in the Royal Army Pay Corps or Corps of Military Accountants (including any previous service in His Majesty's forces) does not count for non-effective purposes, he will refund the basic gratuity less the amount which he would have received as half-pay for the period between retirement and the grant of the new commission and will be liable to an annual deduction from pay equal to the annuity value, at the date of the original grant, of the service addition.

3. An officer who, after an interval of 5 years from the date of his retirement, is granted a permanent commission in the Royal Navy (including the Royal Marines), the Army or the Royal Air Force will be dealt with as provided in the preceding paragraph for an officer who does not count his service

in the Royal Army Pay Corps or Corps of Military Accountants for non-effective purposes. A.O. 458
1925

4. An officer who retired with a gratuity and is appointed *continued.* to permanent employment under a public department (other than as a commissioned officer) within a period of two years from the date of his retirement will retain the service addition of £100 for each complete year of service, together with one-twentyfourth of the basic gratuity for each complete month which has elapsed since his retirement, but will refund the remainder of the basic gratuity. For example, refund in the case of an officer appointed after an interval of eighteen months and twenty-one days will be one-quarter of the basic gratuity. If the officer retired on retired pay he will cease to draw the compensation element from the date of re-employment.

5. An officer who obtains employment under a public department (other than as a commissioned officer) after two years have elapsed since retirement, may retain the whole of the emoluments granted under Army Order 376 of 1925.

 examination at any time, and officers who were holding

APPENDIX XXII.

(*Referred to in para. 158A.*)

QUALIFICATION OF R.E. OFFICERS FOR APPOINTMENT AS C.R.E. IN PEACE.*

1. A R.E. officer, in order to be qualified to hold the
 appointment of C.R.E. in *peace*, will, at any time after
 the completion of 15 years' service, be tested by a Stand-
 ing Board in his technical knowledge and experience.

* Officers who have passed the (f) (ii)—Construction Test—
 examination, which has been abolished, and officers who held the
 rank of major on 31st December, 1925, will be exempt from passing
 this test.

2. This test will be conducted in England. Candidates will be given a project in practical constructional engineering, including accessory services† within the scope of the normal technical duties of the Corps. A.O. 467
1925
continued.

3. A candidate will be allowed 1 hour to consider the project, during which he may be called upon to prepare a hand sketch if required. He will then appear before the Board in person and either state verbally, or, if he so prefers, hand in a written statement of, his proposals for the design and carrying out of the work. The Board will question the candidate on his proposals and will take into consideration his knowledge of practical engineering methods rather than his knowledge of theory and details.

4. Officers on the Indian Establishment may be permitted by the Army Council, with the concurrence of the Commander-in-Chief, India, to appear before a similar Board in India. The projects for the local Board in India will be set by the Standing Board, to whom recommendations for exemption under para. 5 will be made by the former.

5. An officer may apply for exemption from the test by the production of a statement‡ signed by the C.E. under whom he served, showing that he has had practical engineering experience in charge of constructional work. The Standing Board will be the judge as to whether this furnishes sufficient proof of his engineering qualifications. If so, he will be reported as having passed the test.

6. The aim of this test is to ensure that all R.E. officers, who receive a very good technical training on joining the Army, shall keep up their technical knowledge by practice and study in order that they may all be fit for the technical duties which fall to a C.R.E., which is the normal regimental employment for a lieutenant-colonel, R.E.

7. By allowing exemption from the test to those officers who can produce proof of practical experience in charge of works, it is hoped that officers will of their own initiative seek opportunities for obtaining such practical experience which is the most valuable form of training.

† Accessory services mean: approaches, drainage, fences, water supply, electrical and mechanical services.

‡ The statement should take the form of a pro forma which should admit of officers keeping an "employment" sheet signed at intervals by C.R.E.s. and O.E.s. under whom they have served, and giving details of the technical experience and responsibility of the candidate.
